Work Health and Safety Officer Civil Construction Focus

- Are you looking for your next opportunity to work for a diverse and dynamic organisation in a fast paced civil construction environment?
- Exceptional Opportunity to get 'your hands' dirty in an operational role
- Autonomous role with various site responsibilities and project over sight

The Opportunity

Working in a highly dynamic civil construction environment, you will have the opportunity to further develop your career and gain excellent industry experience in the construction sector. We strongly value safety in the workplace. You will be providing specialist health & safety advice, consultation and coaching.

The Role

As the Work Health and Safety Officer you will assist in the planning and implementation of safety programs as well as overseeing all safety documentation including JSAs, SWMS and SMS's on various large scale projects in your district. You will be conducting site inductions and managing the contractors on site. You will be responsible for monitoring and supervising all activity on site, ensuring all Safety Management Systems are implemented.

This is a leadership role where you will be crucial the overall success of the projects.

The Ideal Candidate will Possess

- Demonstrated experience in rolling out safety management systems and implementing safety documentation
- Minimum 5 years' experience within safety
- Tertiary qualifications in safety (minimum Certificate IV in OHS)
- Exceptional communication and leadership skills
- Great interpersonal skills

All applications should be forwarded with a resume to admin@burkecontractors.com.au
